Luxury Faceplates for Crestron Horizon & Cameo Keypads

*Complete Your Design Story*

# Polished Faceplate Finishes for Horizon Keypads

## POLISHED BRASS

A bright, golden, and luxurious polished brass embodies richness and prestige. Its highly reflective surface brings warmth and vibrance to any setting.

Best suited for luxury residences, boutique interiors, and statement-making spaces that embrace opulence. Works beautifully with wood, marble, and darker accents.

## POLISHED BRONZE

A deep, rich finish with warm undertones, polished bronze adds a sense of classic elegance and subtle luxury. Its glossy sheen enhances its natural depth, making it stand out while still blending harmoniously into traditional or transitional décor.

Ideal for the warm-toned interiors, vintage-inspired spaces, or classy environments where a touch of refined heritage is desired.

## POLISHED CHROME

A sleek, mirror-like surface that reflects light beautifully, polished chrome offers a bright, contemporary appeal. Its smooth, flawless finish gives a sense of modern sophistication.

Perfect for minimalist interiors, luxury modern homes, and professional workspaces that favor clean lines and reflective surfaces.

# Matt Faceplate Finishes for

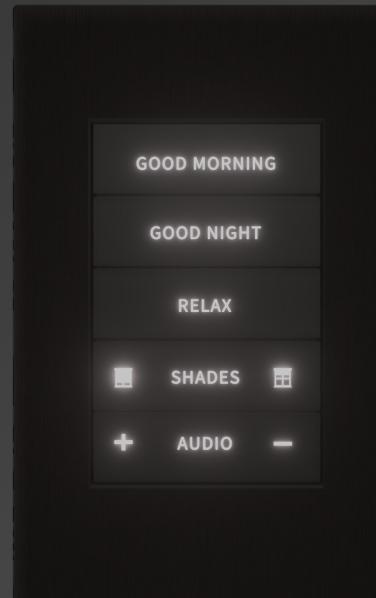

## Horizon Keypads

### MATT BRONZE

Matt bronze brings depth and warmth with its soft, non-reflective surface. Unlike polished bronze, its muted texture creates a grounded elegance, highlighting subtle richness without shine.

Works beautifully in transitional or traditional interiors where understated luxury is preferred. Complements warm wood tones, stone surfaces, and earthy palettes.

### MATT BLACK

Bold, sleek, and contemporary — matt black exudes confidence with its velvety smooth surface. Its non-reflective quality makes it both dramatic and minimal.

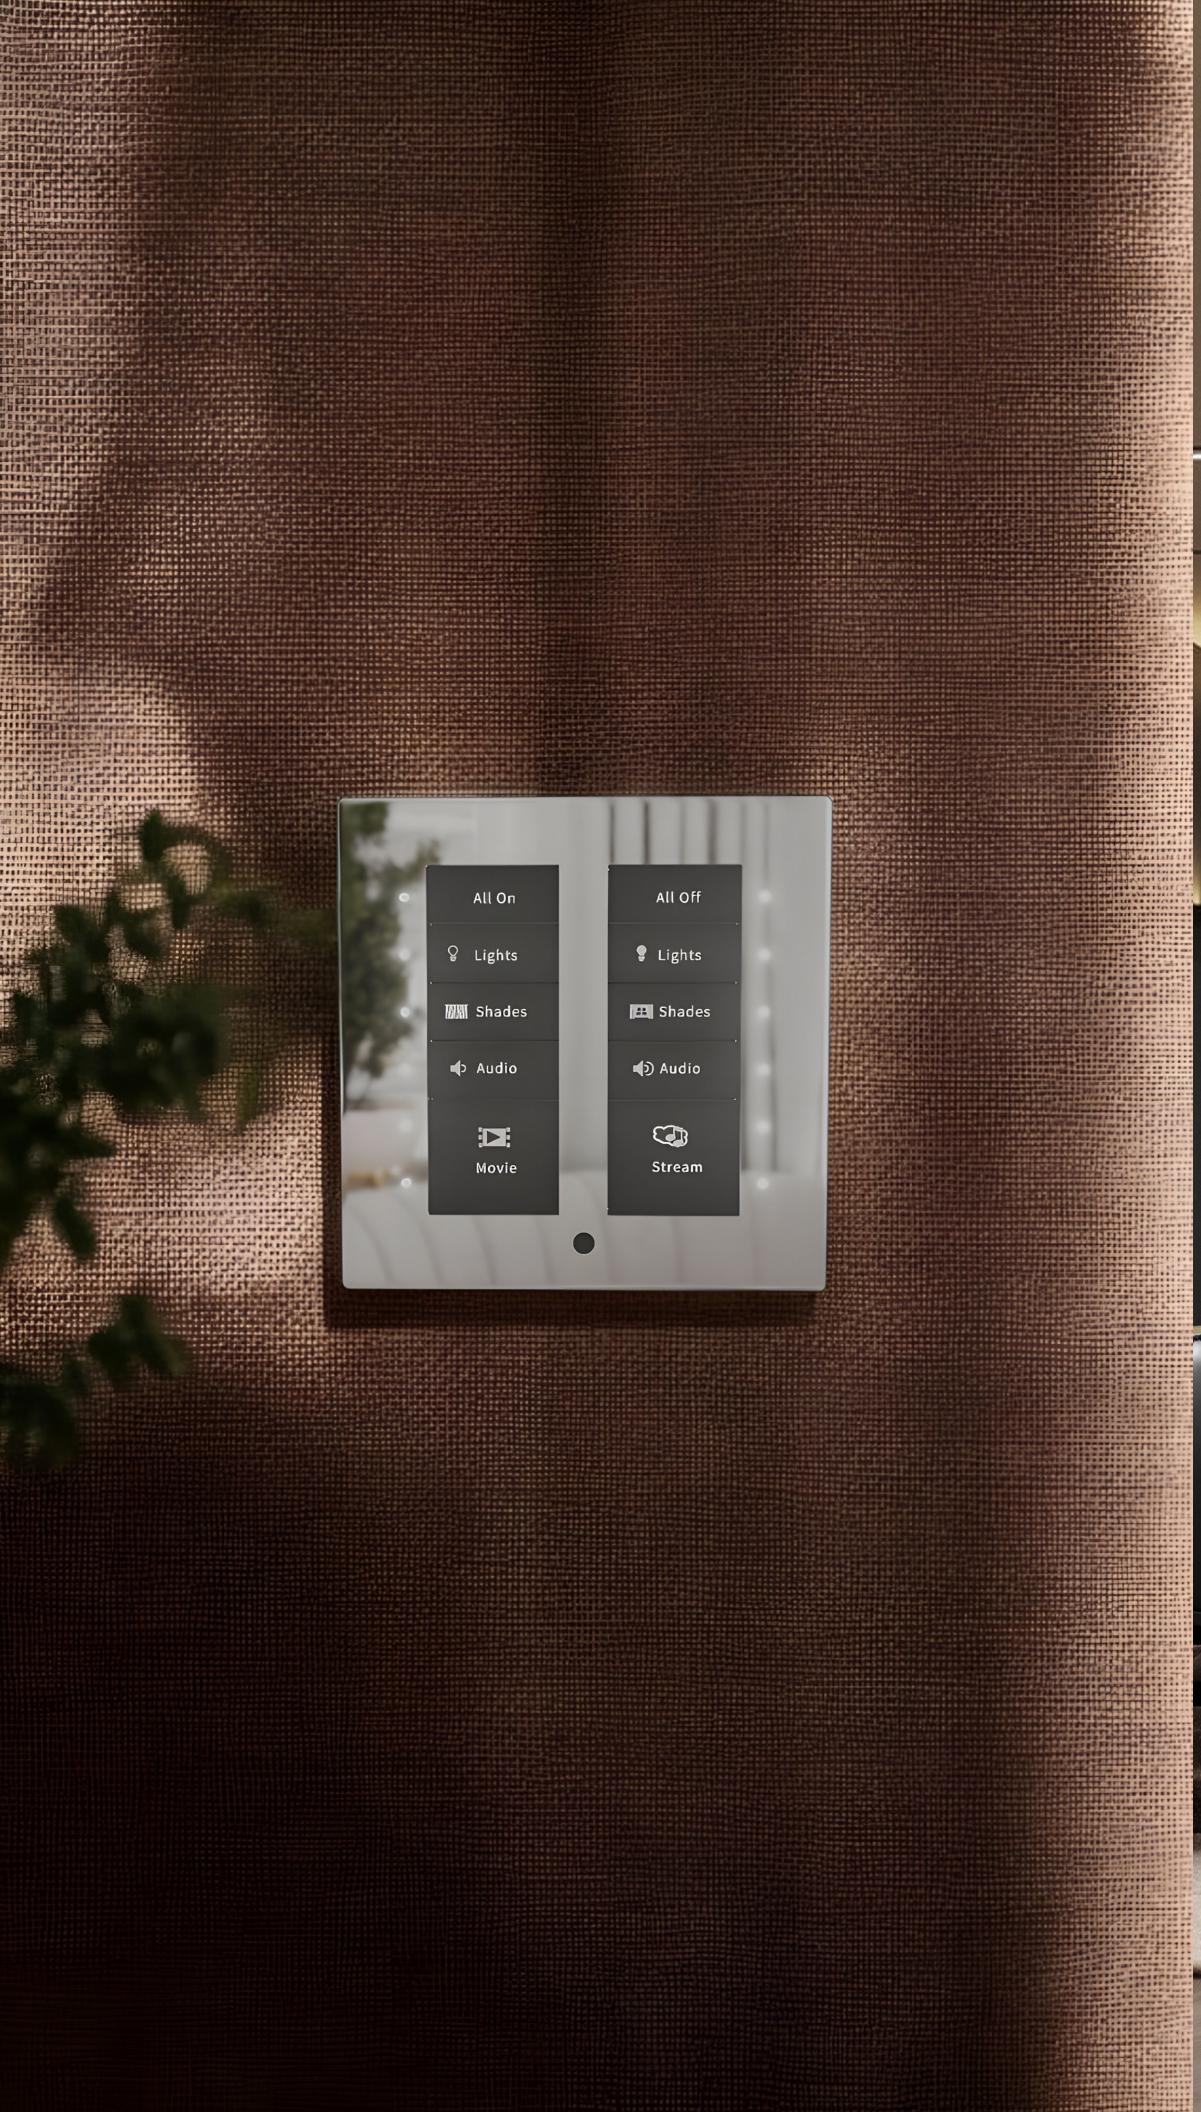

Perfect for modern, industrial, and high-contrast interiors. It pairs seamlessly with white, metallics, and natural textures, creating striking visual balance.

### MATT NICKEL

Subtle, cool, and refined — matt nickel offers a muted silver-gray tone with a satin-like softness. It delivers the sophistication of metal without the shine of chrome or polished nickel.

Best for contemporary, minimalist, or Scandinavian-inspired interiors. Works exceptionally well with neutral palettes, wood accents, and modern architectural details.

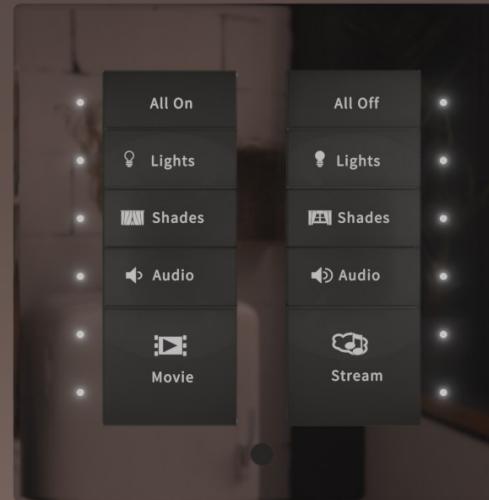

# Polished Faceplate Finishes for Cameo Keypads

## POLISHED BRASS

A bright, golden, and luxurious polished brass embodies richness and prestige. Its highly reflective surface brings warmth and vibrance to any setting.

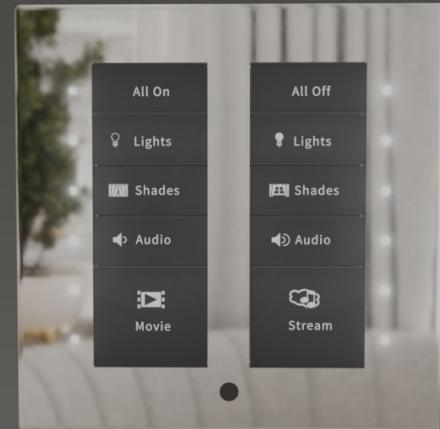

Best suited for luxury residences, boutique interiors, and statement-making spaces that embrace opulence. Works beautifully with wood, marble, and darker accents.

## POLISHED BRONZE

A deep, rich finish with warm undertones, polished bronze adds a sense of classic elegance and subtle luxury. Its glossy sheen enhances its natural depth, making it stand out while still blending harmoniously into traditional or transitional décor.

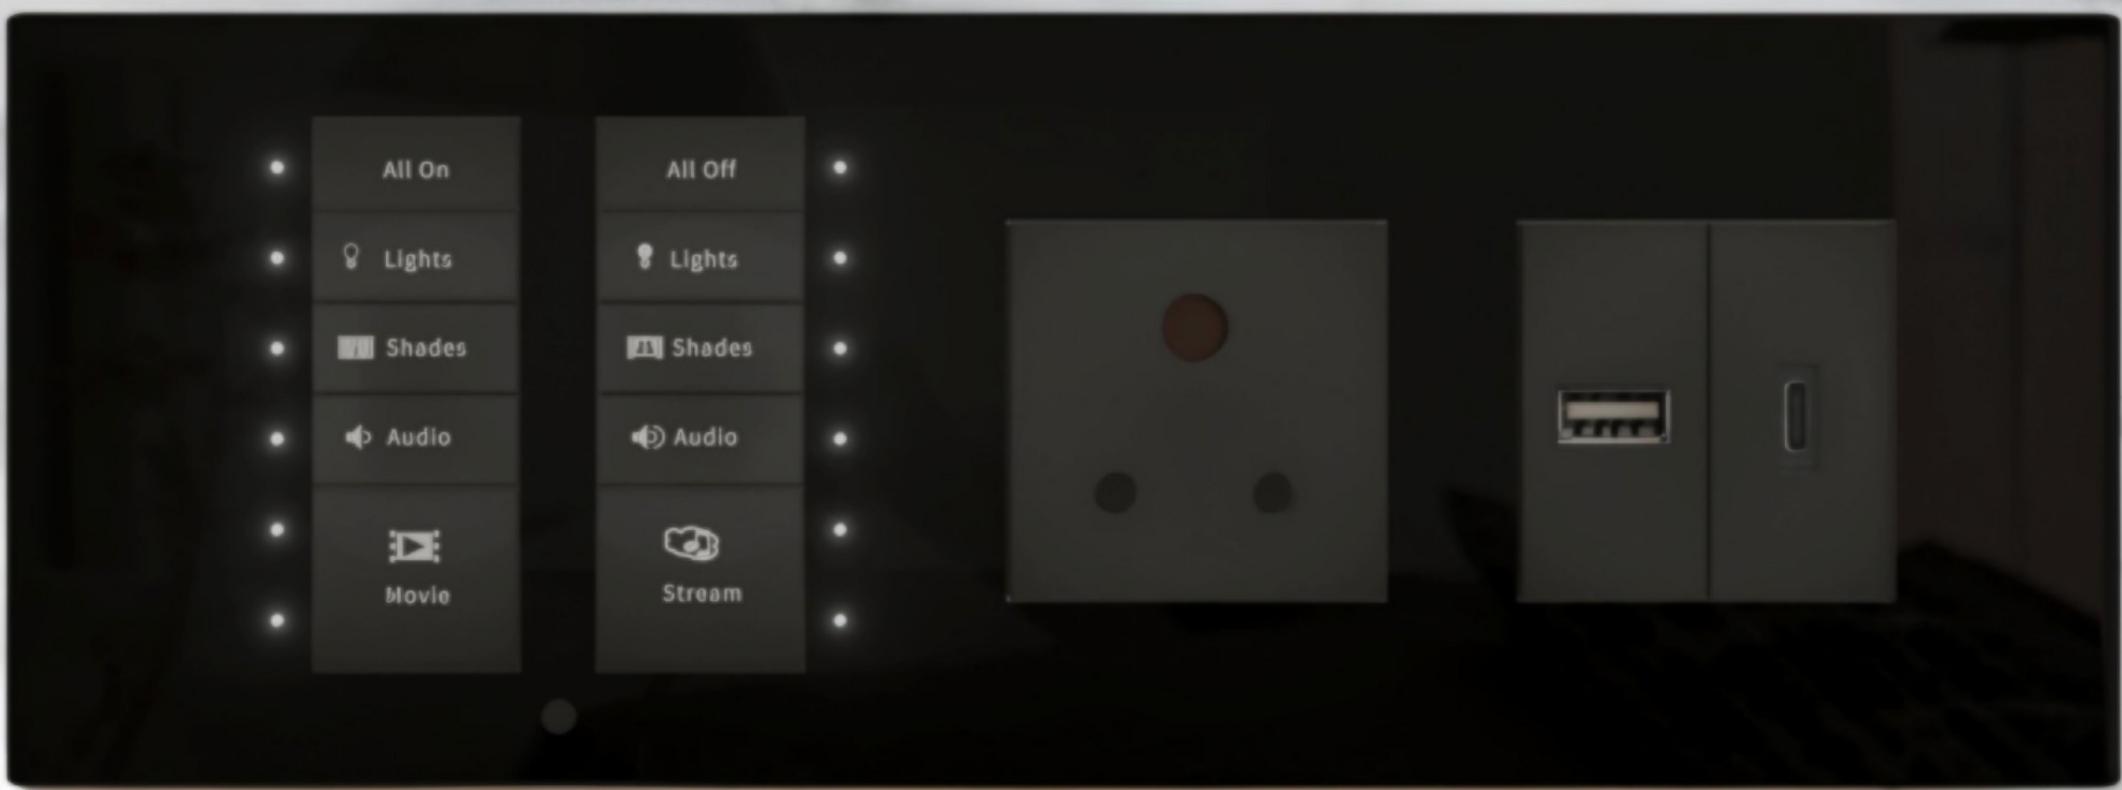

Ideal for the warm-toned interiors, vintage-inspired spaces, or classy environments where a touch of refined heritage is desired.

## POLISHED CHROME

A sleek, mirror-like surface that reflects light beautifully, polished chrome offers a bright, contemporary appeal. Its smooth, flawless finish gives a sense of modern sophistication.

Perfect for minimalist interiors, luxury modern homes, and professional workspaces that favor clean lines and reflective surfaces.

Redefine comfort and convenience in your bedroom with the elegant **Cameo Bedside Keypad**. Designed to blend seamlessly into modern interiors, it offers a sophisticated combination of **style, control, and practicality**.

# Brushed Brass Finishes

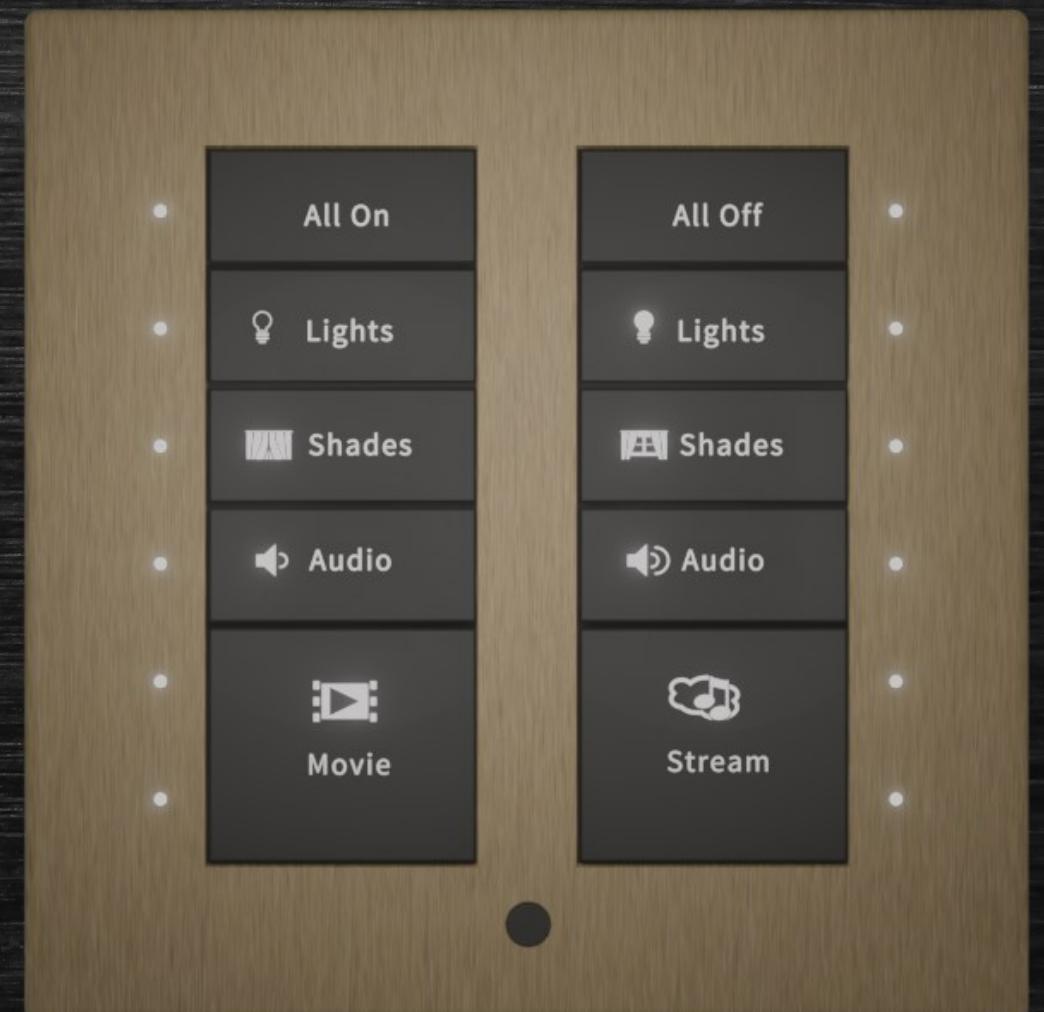

*Reimagined in brushed perfection Finishes*

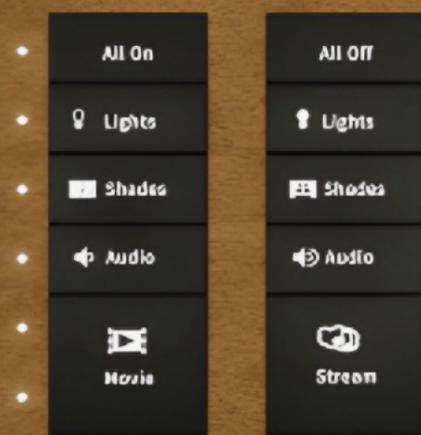

Brushed brass offers a refined, matte texture with subtle directional strokes that soften the bright luster of polished brass. The result is a warm, golden finish with a contemporary twist elegant yet understated.

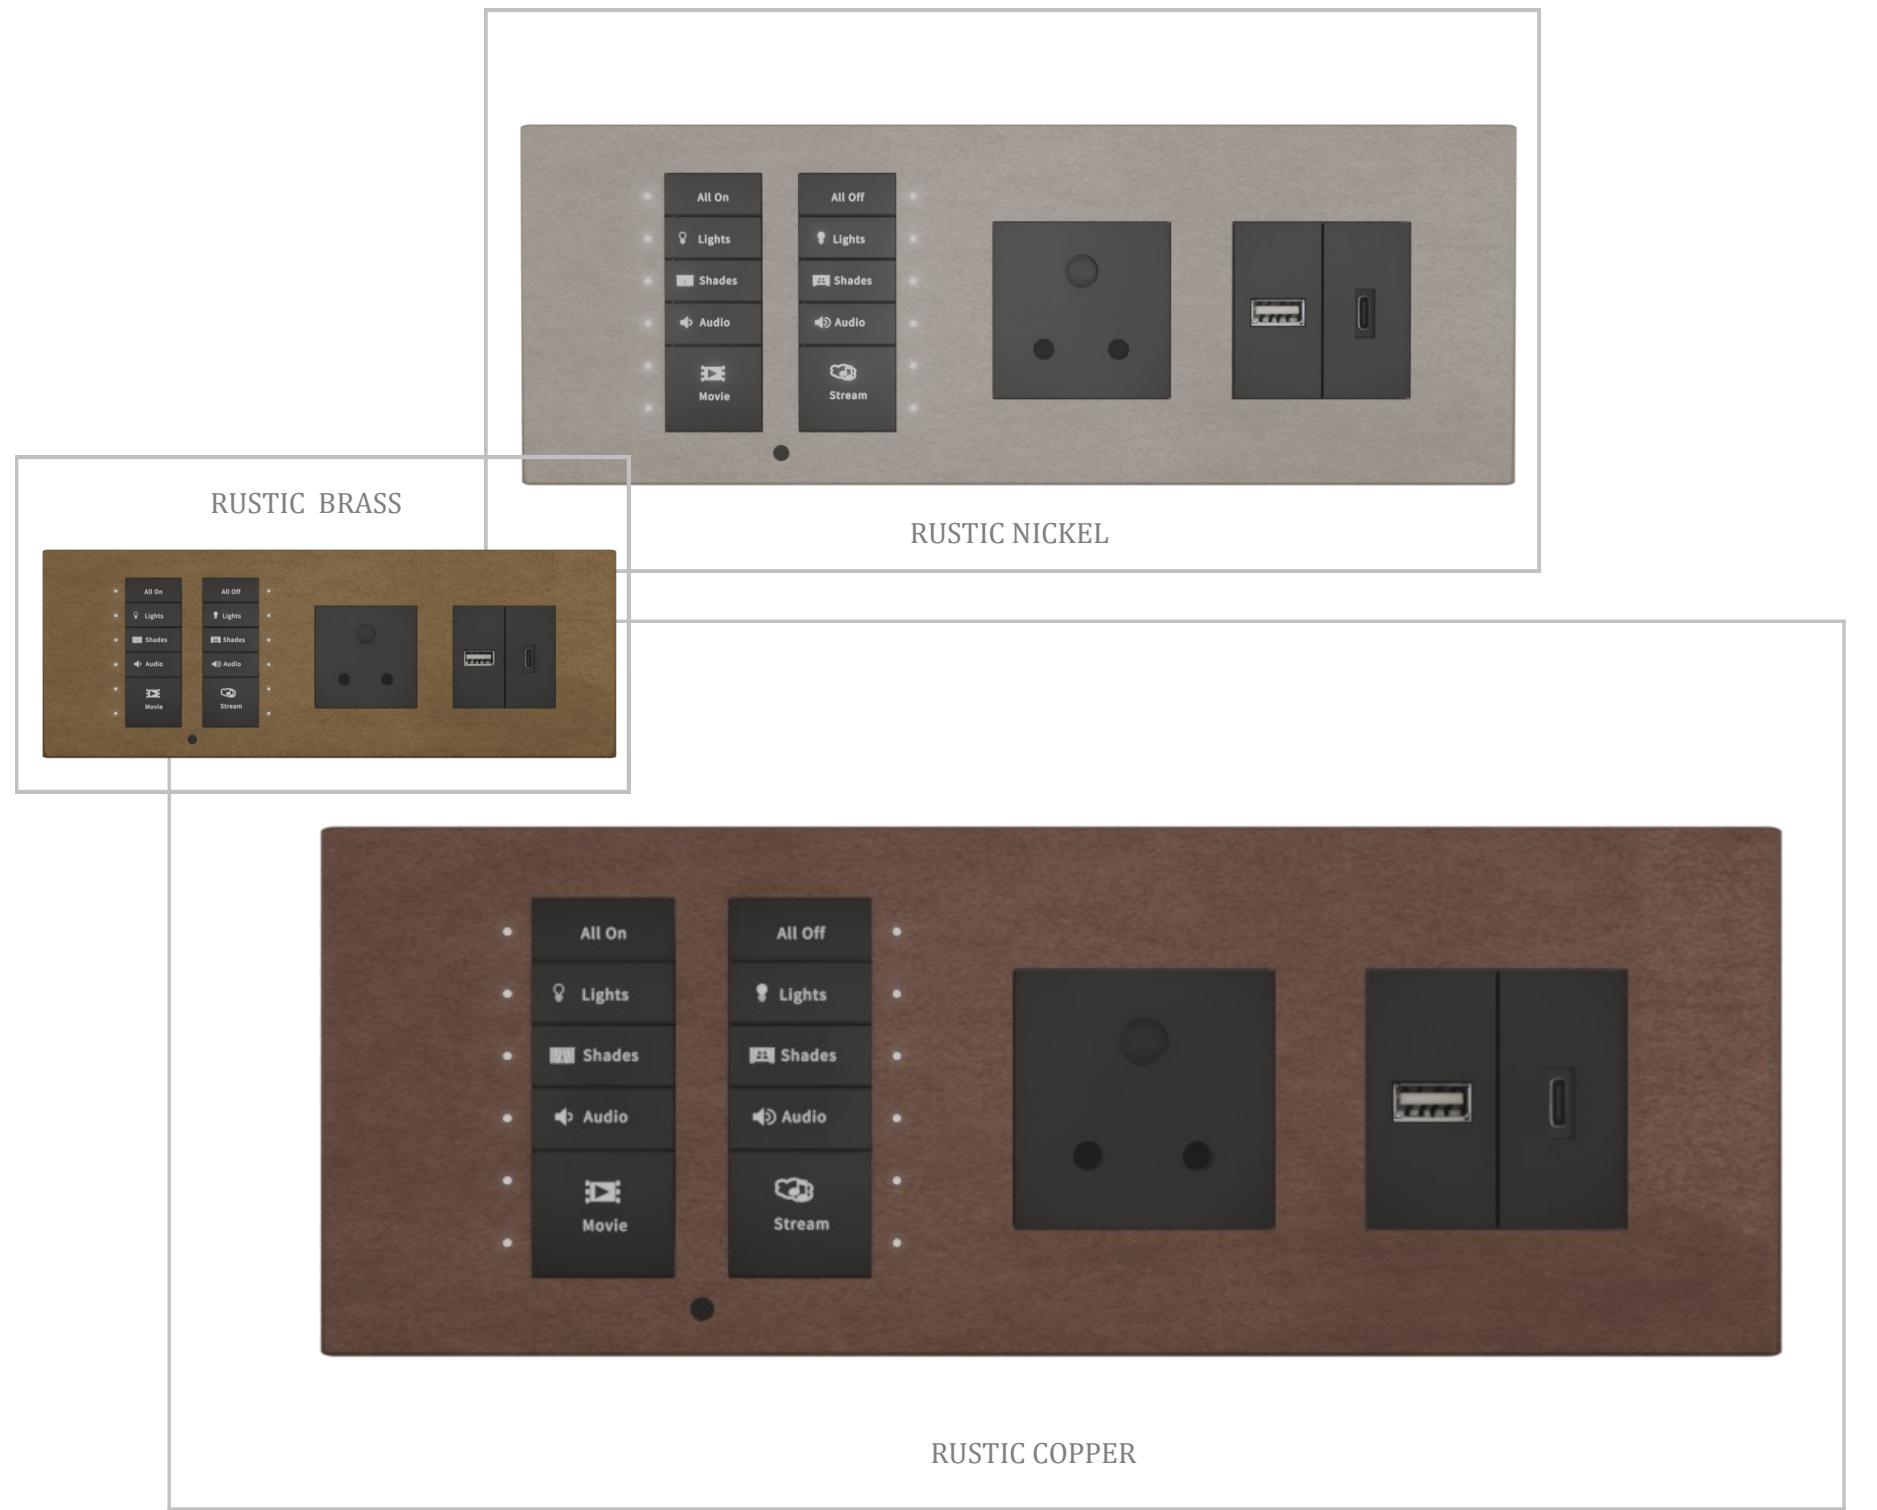

Perfect for interiors that combine luxury with modern design sensibilities. It pairs beautifully with natural materials like stone, marble, and wood, as well as muted color palettes that allow its warm golden tones to stand out without overwhelming.

SATIN BRASS

ANTIQUE BRASS

Rustic metal faceplates carry a weathered, time-worn charm that embraces natural patina, texture, and earthy tones. With their raw, artisanal appeal, they evoke the character of aged metal — each finish unique, full of depth, and rich with heritage.

Ideal for farmhouse interiors, industrial lofts, and spaces with vintage or organic design themes. Rustic metal pairs beautifully with exposed brick, reclaimed wood, stone, and other natural materials, adding authenticity and warmth.

The keypad is paired with integrated **power outlets** and **USB/Type-C ports**, ensuring your devices are always charged and ready—without cluttering your nightstand.

With **Cameo Bedside Keypads**, every night ends and every morning begins in effortless elegance.
